

Esteemed Members of the Campus Community:

The purpose of this email is to invite you and your students to participate in the 3<sup>rd</sup> Annual **Palm Beach Atlantic University Interdisciplinary Research Conference**. The conference, sponsored by the Office of Institutional Research and Effectiveness, will be held on Wednesday and Thursday, March 26 and 27, 2014. Once again, the event will be held in the Warren Library.

The conference will include a **keynote address** by distinguished researcher and speaker as well as one of our very own, Dr. Samuel Joeckel. In addition, the conference will include student and faculty **paper presentations and poster sessions**. Separate awards will be presented for the best student and best faculty research along with recognition of the best student-faculty collaborative research project.

I can say with certainty that a variety of research and scholarly activity takes place on our campus every day. However, we are often unaware of the amazing activities taking place within our campus community, intellectual pursuits that span the length of human inquiry from the fine arts to the sciences. By fostering the process of scholarship through research within the PBA community, we have entered a new era in the history of PBA!

In preparation for the Interdisciplinary Research Conference, Palm Beach Atlantic University is accepting **abstracts from faculty, students, and teams of faculty and students in all disciplines** to promote the scholarly activities of all members of our academic community. Through the conference, we seek to facilitate the exchange of ideas among all fields of inquiry, encourage scholarly investigation, and foster the educational function of research, broadly defined. Please encourage your students to submit as well. The deadline for submissions will be Friday, February 28, 2014.

You may copy and paste the links into your browser or click on the following links.
